

Part 6

Deciding your next professional development step

Having completed this module and re-assessed your skills, you need to think about the next stage in your professional development.

This is really up to you now.

Look at the chart and use it to help you decide 'Where next?'

A sample action plan is available on the web site.

Portfolio Activity 8

Create a checklist of repetitive activities that you carry out on a daily, weekly, monthly or annual basis. Identify how you could use ICT to reduce the repetition and what the cost saving could be in time.

Portfolio Activity 9

In consultation with your tutor mentor draw up an action plan to continue your own personal development.

We hope that you have enjoyed the training and that it has helped to develop your knowledge and understanding of ICT and supported you in your teaching.

You will receive a certificate of completion from your training provider, as evidence of your training.
